Cross Agency Asset Management Forum

Transportation Performance Management Monday, November 13, 2023 1:00 to 2:30 p.m.

Transportation Performance Management (TPM) are federal requirements that govern target-setting, asset management, and planning and programming of transportation projects.

The session will provide an overview of TPM.

- Introduction of target-setting for:
 - Pavement and Bridge
- The relationship between TPM and regional transportation plans
- Review California's recent performance and consequences of noncompliance

Joint presenters from Caltrans, FHWA and MPO

Demonstration of pilot tool for project portfolio evaluations

Please join us for a discussion on TPM!
